

ENVIRONMENTAL POLICY

PC Walls Pty Ltd is committed to carrying out all our work operations in such a manner that we, as far as practicably possible, achieve the following objectives:

- Ensure all materials and processes used in our operations have the minimum possible impact on the environment.
- Through continuous monitoring and review, strive for improvement in all aspects of the company's impact on the environment.
- Manage our work sites in a manner that ensures we comply with all local, national and legislative requirements.

To ensure we meet our commitments we will:

1. Ensure that all personnel associated with our works know their obligations with regard to the above. Managers will provide visible leadership, commitment and support to our objectives.
2. Empower our employees and subcontractors to stop a job where potential exists for pollution or any adverse effect on the environment.
3. Provide suitable and well maintained equipment required to ensure minimum impact to the environment.
4. Promote a positive culture within our company towards improvement in all the above areas.
5. Comply with all applicable legislative standards and company requirements, as well as contractual and site specific obligations.

The owners of PC Walls Pty Ltd believe adherence to the above commitments will ensure our company will succeed in achieving our company goals.

Sean King
